

Linger, Listen, Live, Lift!

1. **Linger:** Make time in the Bible *quality* time. Approach God's Word with an open heart. Avoid rushing. Eliminate distractions. Read suggested passages but also read the scriptures before and after so you get an understanding of the context.
2. **Listen:** When reading scripture leave time to listen. Ask God what message He has for you. This is a time when writing out your thoughts is helpful and appropriate. Also listen to the suggested songs from the study each week. They have been chosen to enhance our study. Use a source like u-tube to search and listen.
3. **Live:** Create your own "live statements" based on the scriptures you are reading. A "live statement" should be based on something you learn in your study time that you want to implement in your life. Express in word how you want to live according to the scriptures you are studying.
4. **Lift:** Add your live statements to your prayers. Use this time to praise God for what you are learning.

Use the 4L study guide sheet during the week as you travel through our verse by verse joy ride!
